INSTITUTIONAL PROJECT PROGRESS REPORT

Snapshot: 2026-10-28 07:54:07.963910 (Asia/Manila)

Reporting Units

Statistical unit	Total
Active Student records	12
Distinct research projects	1
V14 enrolled projects	1
Unreconciled Student records (including unlinked V14 holders)	10
V14 workflows awaiting project reconciliation	0

Canonical Research Projects

Research title / secondary identifier	Official V14 stage
Synthetic study of research monitoring and the organization of institutional ethics documentation across several academic programmes with a long research title for PDF wrapping verification changed during provider call synthetic-study-of-research-monitoring-and-the-organization-of-institutional-ethics-documentation-across-several-academic-programmes-with-a-long-research-title-	Initial Submission

V14 Project Stage Distribution

V14 stage	Distinct projects
Initial Submission	1

Legacy Student Stage Distribution

Legacy recorded stage	Student records
Stage 1	2
Stage 2	8

Source / Verification Notes

Canonical projects are counted by immutable project ID, once per project. Student totals are a separate statistical unit. Legacy stages exclude enrolled workflows and canonical project members; no stage mapping or legacy reconciliation is inferred.

This deterministic database snapshot does not infer submission dates, investigator roles, institutional decisions, causes of delay or future progress. Individual track sheets retain Initial Submission through 3rd Resubmission only.
