IERB TRACK SHEET - PROJECT PROGRESS REPORT

## Synthetic study of research monitoring and the organization of institutional ethics documentation across several academic programmes with a long research title for PDF wrapping verification changed during provider call

Snapshot: 2026-10-28 03:28:42.130423 (Asia/Manila)

## Research Identification

| Research information | Recorded value |
|---|---|
| Principal Investigator | Not recorded |
| Protocol Code | Not recorded |
| Research Category | Not recorded |
| Research / Study Title | Synthetic study of research monitoring and the organization of institutional ethics documentation across several academic programmes with a long research title for PDF wrapping verification changed during provider call |
| Co-Investigators | Not recorded |
| Research Group Identifier | synthetic-study-of-research-monitoring-and-the-organization-of-institutional-ethics-documentation-across-several-academic-programmes-with-a-long-research-title- |
| Academic Year | 2026-2027 |
| Assigned Research Adviser | Synthetic Adviser 2 |
| Current IERB Stage | Initial Submission |

## Initial Submission and Resubmission Tracking

| Submission | Date Submitted | Date Returned |
|---|---|---|
| Initial Submission | Not recorded | Not recorded |
| 1st Resubmission | Not recorded | Not recorded |
| 2nd Resubmission | Not recorded | Not recorded |
| 3rd Resubmission | Not recorded | Not recorded |

57 formal-submission audits lack complete source document evidence. Dates cannot be reconstructed from those records. Audit IDs retained for RPMS review: 56, 60, 138, 142, 173, 178, 185, 192, 197, 202, 207, 212, 217, 222, 227, 232, 237, 248, 268, 276, 290, 295, 309, 315, 329, 338, 346, 375, 530, 538, 553, 568, 583, 607, 612, 619, 626, 631, 636, 641, 646, 651, 656, 661, 666, 671, 682, 702, 710, 724, 729, 743, 749, 763, 772, 780, 809.

Initial formal submission date not recorded or cannot be assigned unambiguously.

## Current IERB Progress

Official stage: Initial Submission | Progress: 0%

Accepted mandatory documents: 0 / 14. The Final Report requires formal submission, with no additional RPMS acceptance.

Missing / pending: Certification of Ethics synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label; Curriculum Vitae synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label; Data Collection Questionnaire synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label; Diagrammatic Workflow synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label; Form 11 Review Checklist synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label; Form 12 Registration and Application Form synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label; Form 13 Study Protocol Assessment Form synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label; Form 14 Informed Consent Assessment Form synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label; Informed Consent in English synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label; Informed Consent in Local Language synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label; Letter to IERB Chair synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label; Payment Receipt synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label; Study Protocol synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label; Form 33 - Certificate of Approval synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label synthetic long requirement label

Correction status: No open correction case

Latest recorded activity: 2026-10-28 03:28:40.336644

Form 33 acceptance: Not accepted

Form 33-0B formal submission: Missing

IERB completion date: Not recorded

## AI Progress Assessment (generated review aid)

Local deterministic fallback

Recorded stage: Initial Submission. Official progress: 0%. 0 requirement(s) currently have verified RPMS acceptance; 0 correction case(s) have formal resubmission evidence. Official project completion is not recorded. Review the requirement table for documented outstanding actions. Missing dates and investigator roles cannot be inferred. No cause of delay or future outcome is established.

## Source / Verification Notes

57 formal-submission audits lack complete source document evidence. Dates cannot be reconstructed from those records. Audit IDs retained for RPMS review: 56, 60, 138, 142, 173, 178, 185, 192, 197, 202, 207, 212, 217, 222, 227, 232, 237, 248, 268, 276, 290, 295, 309, 315, 329, 338, 346, 375, 530, 538, 553, 568, 583, 607, 612, 619, 626, 631, 636, 641, 646, 651, 656, 661, 666, 671, 682, 702, 710, 724, 729, 743, 749, 763, 772, 780, 809.

Initial formal submission date not recorded or cannot be assigned unambiguously.

Investigator roles and research category have no authoritative fields in the current canonical project schema. Submission holder and membership do not establish investigator roles.

Protocol code comes from the designated holder; academic year requires agreement among recorded project members.

Submitted dates use document rpms_submitted_at with mandatory formal-submission audits; returned dates use separate document_returned_for_revision audits. Uploads, acceptances and case openings do not establish those dates.

Each case contributes at most one cycle. Date Submitted is the earliest audited formal submission of an affected successor or required Amendment in that case, not proof that every correction was submitted.
